Allowance

1. Applicant's submission filed on 30 March 2007 has been entered.
2. Claim 6 has been cancelled. Claims 1-5 and 7-16 have been allowed.
3. The following is an examiner's statement of reasons for allowance:

With respect to claims 1 and 14, the prior arts of record, singly or in combination fail to teach the features of claim(s) limitations thereof. Specially, inter alia, it fails to teach a station for a network apparatus and a method of distributing tasks in a network in which service requests are broadcast from a first station to each other station identified in a trust list. Before accepting or refusing the service request, the each other station(s) identified in the trust list will perform a self-assessment to determine a measure of available hardware resources and also the current usage of those hardware resources. Based on this assessment, the each other station(s) will respond to the sending station with either an acceptance or refusal message. If the response is an acceptance message, the station then will perform the requested service and transmit a result to the first station. The claimed invention also includes a service requirement analysis module that manages a software repository by importing and exporting software modules to and from other stations.

Claims 2-5, 7-13, and 15-16 further limit the allowed claims and are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
